## SUMMARY

Data Analyst with strong skills in SQL querying and data visualization. Enhanced business operations through effective statistical analysis. Collaborated with management to prioritize and address critical business needs.

## SKILLS

- SQL querying
- Microsoft Power BI
- Data analysis
- NumPy
- Data modelling
- Data visualization
- Data cleaning
- Pandas

## EXPERIENCE

10/2024 to Current — Data Analyst

Shilpi Computers Pvt Ltd – Delhi

- Collaborated with cross-functional teams to identify business challenges and develop data-driven solutions.
- Wrote optimized SQL queries to extract, transform, and load (ETL) data for analysis.
- Automated recurring data analysis processes, improving efficiency by reducing manual tasks.
- Built and maintained dynamic dashboards and reports in Power BI to support real-time decision-making.
- Documented all processes related to data modelling, cleaning, and reporting.

07/2023 to 09/2024 — Executive Data Science

Master Capital Services Ltd – Delhi

- Cleaned, transformed, and validated large datasets using SQL and Python libraries (Pandas, NumPy).
- Created interactive dashboards and visualizations in Power BI to present insights to stakeholders.
- Participated in implementation of data security and RLS (Row- Level Security) on Power BI Service.
- Created a Power BI application with custom data models to enable secure, role-based data access for operations teams.
